

Terminal Beginning Book Reviews

“Attention Grabber!

Great book that kept me guessing until the very end. Just when I thought I had something figured out the plot would take a twist. Interesting to see how everything came together. Unlike anything I have read and I couldn't put it down. Enjoyed this book so much I had to purchase the hard copy for my collection. Definitely recommend it!”

“Awesome Read!

Love this book! The story grabbed me from the start. One of those books you won't want to put down. Highly Recommended!”
